

Indonesia-Coffee.com | PT FoodHub Collective Indonesia

Premium Indonesian Coffee Supplier

Authentic Taste

Connecting the world with the rich, unique flavors of Indonesia.

Ethical Sourcing

Ensuring transparency and fair practices from farm to cup.

High Quality

Delivering consistently superior aroma and taste with every batch.

Our Commitment: From Bean to Brew

Vertically Integrated

We manage the entire supply chain, ensuring quality and traceability from farm to export.

Premium Sourcing

Sourced from Indonesia's renowned regions: Sumatra, Java, Sulawesi, Bali, and Flores.

Ethical & Sustainable

Committed to fair practices, environmental responsibility, and community support.

Deep Roots: Our Foundation

About Indonesia-Coffee

PT FoodHub Collective Indonesia, operating under the brand Indonesia-Coffee.com, stands as a premier vertically integrated Indonesian coffee supplier and exporter. Our mission is to bridge the gap between Indonesia's rich coffee heritage and global markets, delivering premium Arabica and Robusta from the nation's most celebrated growing regions.

- **Direct Origin Partnerships:** We work directly with farmers and cooperatives, ensuring every bean is grown under fair, sustainable, and environmentally responsible conditions.
- **Comprehensive Support:** From agronomy training to post-harvest management, we empower our farming partners to enhance both yield and quality, while preserving the invaluable biodiversity and cultural heritage of Indonesia's coffee lands.

Uncompromising Quality: From Farm to Export

Rigorous Quality Control

Every lot is graded, moisture-tested, and cupped by certified Q-graders to guarantee flavor consistency.

Flexible Export & Customization

Offering green, roasted, or ground coffee with custom roasting, private labeling, and tailored packaging.

Direct Origin Partnerships

We work directly with farmers and cooperatives to ensure fair, sustainable, and traceable sourcing.

Our commitment extends beyond sourcing; it encompasses a rigorous quality assurance process. Processing facilities adhere to international standards, employing traditional wet-hull (Giling Basah), washed, honey, and natural methods. Each batch undergoes meticulous grading, moisture-testing, and cupping by certified Q-graders, ensuring unparalleled flavor consistency, cleanliness, and traceability.

Our Strategic Presence & Certifications

Strategic Locations & Origins

- Operations and sourcing networks span Indonesia's premier coffee regions: Sumatra, Java, Sulawesi, Bali, and Flores.
- Direct access to specialty lots and deep origin expertise.
- Processing facilities utilizing diverse methods: wet-hull, washed, honey, and natural.
- Strategic port access for efficient global distribution.

Certifications & Documentation

We stand behind every shipment with full documentation, including origin reports, cupping profiles, and batch-level traceability.

- **Organic:** Certified organic farming practices.
- **Rainforest Alliance:** Promoting environmental sustainability and farmer welfare.
- **Fair Trade:** Ensuring equitable trading conditions for our producers.

These certifications are available upon request, reflecting our dedication to transparency and ethical practices.

Featured Products: Roasted & Green Beans

Roasted Mandheling Coffee Beans

Classic Sumatran profile: low acidity, full body, rich chocolate-sugar sweetness. Medium/medium-dark roast highlighting syrupy mouthfeel and complex dark notes.

Arabica Java Ijen Grade 1 Green Coffee Beans

Specialty Arabica from volcanic soils of Ijen Highland. Fully-washed to highlight clarity and acidity, sorted to export screen 15–19. Ideal for international roasters.

Sumatra Super Peaberry Green Coffee Beans

Carefully selected peaberry microlot from Aceh highlands. Hand-picked, semi-washed for density and sweetness. Concentrated aromatics, heavy, syrupy body.

More Premium Green Coffee Selections

Bali Natural Green Coffee Beans

Premium Arabica from Kintamani, Bali. Volcanic soils, high altitude. Lively citrus aromatics, chocolate sweetness, strong body. Ideal for distinctive single-origin profiles.

Sumatra Lintong Green Coffee Beans (Grade 1)

Premium Arabica from Lintong Nihuta, North Sumatra. Distinctive earthy aroma, rounded medium body, complex flavor layers. Classic Sumatran character.

Sulawesi Kalosi Green Coffee Beans (Toraja Kalosi)

Sought-after Arabica with distinctive floral aromatics and chocolate notes, offering a unique profile for specialty roasters.

Our Vision: Sustainability & Impact

Sustainability and origin stewardship are the cornerstones of our long-term vision. We are dedicated to preserving Indonesia's invaluable coffee heritage while consistently delivering exceptional beans to the world.

Sustainable Agriculture

Promoting shade-grown cultivation, soil regeneration, and biodiversity protection across all our partner farms.

Quality & Innovation

Continuous improvement in processing, cupping, and export standards to meet the evolving demands of the global market.

Partnerships & Impact

Building lasting relationships that directly increase farmer incomes and foster community resilience within coffee-growing regions.
